

CONFIDENTIAL

16 August 1968

MEMORANDUM FOR:

25X1

SUBJECT : 1968 Summer Intern Program

1. In general, this summer's program was excellent. The tours of the OCI Watch Office and MPIC were particularly interesting, and should become an integral part of the summer intern program. I would recommend an extra hour or two be added to each tour to enable interns to have more time to talk with the various analysts. The seminars with Mr. Jack Smith and the staff of ONE were equally rewarding and should be repeated next year. However, I would not recommend any more meetings or tours since the summer schedule would become cluttered.

2. This summer I had considerable independence and responsibility in working on my project, the people's militia of China. I spent nearly all of my time on this topic, and found the experience most rewarding. It gave me a chance to apply what I had learned last summer, and allowed me to study a subject which will directly benefit my graduate work.
